## Summary

Self-motivated student with good academic performance. Currently enrolled in a Bachelor's program in Computer Science. Got some practical knowledge in implementing ML algorithms in real cases. Constantly researching, acquiring new skills and looking for new ways to improve my knowledge in DS domain. Member of Open Data Science Community and Kaggle lover.

## Employment History

Feb. 2019 — May 2019,

March 2020 – present

### State Research Institute of Aviation Systems Moscow

#### Intern

- Worked on the implementation of correcting algorithms for aircraft testing system
- Python with numpy, sklearn and matplotlib were used

Aug. 2019 — present

### Center for Environment and Natural Resources Studies Moscow

#### Systems administrator

- Working with some automation and network tasks
- Currently enrolled on quarter of a full-time remote contract

## Education

### Bachelor's

Sep. 2016 —

Jun. 2020

### Moscow Aviation Institute (National Research University)

- Degree: Computer Science
- Major: automatic information processing systems
- Thesis: factor analysis of the initial state of the aircraft in the automated testing system

### Courses

Feb. 2020 – present

Sep. 2019

Feb. 2018

Specialization “Machine Learning and data analysis” at **Coursera.org** – currently in progress  
mlcourse.ai at **OpenDataScience.ai**  
MySQL at **sololearn.com**

### Teaching Experience

Mar. 2020

Lecturer, Machine Learning Basics at Moscow Aviation Institute

## Key Skills

Professional skills

**Python** **Pandas** **Scikit-learn** **NumPy** **Matplotlib** **Git** **Linux** **Latex** **MySQL** **C++** **Scrum** **UML**
